

DETAILED ACTION

Allowable Subject Matter

Claims 8, 9, 15 and 16 are allowed.

The following is an examiner's statement of reasons for allowance:

The applicant's appeal brief filed on October 3rd, 2011 has obviated the previous 103(a) rejection of claims 8, 9, 15 and 16 as unpatentable over Diz et al. (US 6,544,361 B1) as stated in the Office action dated February 1st, 2011. Diz et al. ('361 B1) does not teach the final hot rolling temperature between 900 and 1030°C; the Kearns factor FT of between 0.30 and 0.70; and only the process steps limited by the close-ended transitional phrase of "consisting of" as claimed in the instant claims 8 and 15.

A further search for the references on record did not find any prior art which anticipates or renders obvious the claimed subject matter of the instant application alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
